

# VI National Tournament Quality Cup Presidential Coffee 2020

## 1. Description

### The Isabel farm –La Cuesta micro lot

The Isabel farm is a project that began in 2015, in which Albano is a very important part of it, since he is the inspiration for his parents. Which they want him to learn to appreciate the beauty of nature and respect it, like all children, he can enjoy a carefree childhood and be allowed to see that all the dreams he has in his life could become true if he is persistent and has dedication.

harvesting coffee goes from generation to generation allowing us to have memories of our childhood and seeking to improve many aspects and learn how to take care of our environment. In modern times, many children were involved in their parents' chores since they could not leave the house, which raised the big question, Why? Is the usual question of the little ones, and after this, he began to investigate some aspects that caught their attention and projected in what could they might be when they grow up, so Albano decided to dream of having a delicious coffee, knowing that this implied having discipline in many stages of the process and responsibility that he should contemplate to achieve his goal with his parents' support.

Cited by María Montessori

"There is no description, no picture, no book that can replace watching real trees and all the life that surrounds them in a forest. Something emanates from them that speaks to the soul, something that neither a book nor a museum is capable of giving us".
