# **VII National Tournament Quality Cup Presidential Coffee 2021**

## **1. Description**

### **Copacabana Farm –Copacabana Micro Lot**

Mr. Reynaldo and his family have been dedicating themselves to coffee growing for more than 30 years, that is since childhood, with different varieties such as Red Catuai, Mundo Novo and others. Family work is essential on his plot and the name of his micro lot is the same as that of his community.

He is dedicated to specialty coffees because he has heard that this market can offer better prices, it is the first time that he has participated in the Presidential Coffee Tournament and he is very happy to be able to be in the International Electronic Auction together with the best bolivian coffee producers. At the same time, he remembers that his love for coffee began when he started working in the NGO Save the Children as a promoter with coffee, he was trained in this crop at every opportunity and started his coffee plantation from ten plants from which he selected his seeds.
