# **VII National Tournament Quality Cup Presidential Coffee 2021**

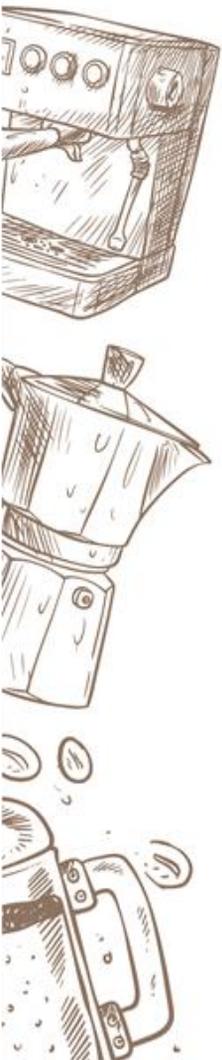

## **I. Description**

### **Isabel farm – La Cuesta Micro Lot**

Finca Isabel, is a project that began in 2015, in which Albano (their son), is a very important part, since he is the inspiration for his parents and they want him to learn to appreciate the beauty of nature and respect it. Like all children, you can enjoy a carefree childhood and be allowed to see that all the dreams you have in this life can come true if you are persisting and dedicated.

Coffee growing goes from generation to generation, allowing us to have memories of our childhood and seeking to improve many aspects and learn that we have to take care of our environment. In modern times, many children were involved in their parents' chores since they could not leave the house, which raised the big question, “Why?”, it is the question of every little one and after this he began to investigate some aspects that caught their attention and project what they could be when they are adults, so Albano decided to dream of having a delicious coffee, seeing that this implied having discipline in many stages of the process and responsibility that he as a child should contemplate to achieve his goal in the hands of his parents.

“There is no description, no picture, no book that can replace seeing real trees and all the life that surrounds them in a forest. Something emanates from them that speaks to the soul, something that neither a book nor a museum is capable of giving us”. Cited by María Montessori
