# VII National Tournament Quality Cup Presidential Coffee 2021

## 1. Description

### Senda Salvaje Farm – Senda Salvaje Micro Lot

Senda Salvaje, is a farm located at 42 kilometers from the city of Caranavi. It is a company, dedicated to expressing the high quality of coffee beans that nature confers on it. In addition, they strives to produce coffee that is friendly to nature, as it cares about caring for the environment, the habitat of animals and the sustainability of livelihoods by implementing coffee plantations with forest trees.

Carmelo Yujra, runs this venture with his family, he belongs to the second generation of coffee growers in the Caranavi municipality. His father, along with other families, were the first to dedicate themselves to this noble crop commercially.

For Carmelo Yujra, Senda Salvaje has brought him many satisfactions, such as getting to know people from different nationalities, dedicated to the coffee industry and currently being one of the best coffee producers in Bolivia, in terms of quality.

Carmelo Yujra and his family still have many challenges to face. Among them, working with high-quality varieties and the great desire that his children continue with the Senda Salvaje venture.
